

WALWORTH COUNTY EARLY CHILDHOOD EDUCATION AND CHILD CARE REPORT 2016

Child Care Supply: Survey data was not complete enough to do a report based on total enrollments so regulated slots (each slot being a full time space for one child) were used to identify the capacity and market share for each type of program or zip code in the county. The number of children receiving Wisconsin Shares child care subsidies is based on reports from the state's child care billing system for April 2016. The number of available slots decreased by 84 as the county lost group centers. A number of rural areas still have no regulated care at all. In addition to regulated early childhood programs there are 1,211 children in public or private school 4K or other preschool programs.

On the back of this page is data on family child care rates, benefits and education from the 4-C 2016 survey of child care providers in Walworth County. More information is available on the 4-C website www.4-C.org.
